The parade starts at 2 p.m. Riding on the float will be three little girls, Vicki Fletcher, Denise Dugas and Cindy Hutton. The float was seen recently in the North Park Toyland Parade.

First Time In 4 Years

Assessment Teams Revaluing Lemon Grove Properties

Lemon Grove property valuations are now being reviewed by County Assessor John McQuilken's appraisers. Many changes in assessed values are anticipated since this is the assessor's first area-wide reappraisal here since 1959.

During that time Lemon Grove has acquired additional population, zoning changes, highway and street improvements, altered traffic patterns, and has followed some of the newer trends in shopping habits.

The commercial area here is a good example, according to McQuilken, of what an assessor's greatest challenge: property values are constantly changing but never at a uniform rate.

Property assessments must be in proportion to value, according to California's constitution, and that necessitates frequent reappraisals to follow value trends, up or down.

"Our appraisers study carefully each property in the light of all the many value-influencing factors," McQuilken said. "Neighborhood influences are paramount. In our complex and very sensitive economy, surprising changes can occur in a relatively brief period of time.

"That is the basic reason for our striving to shorten the time-lapse between these area-wide reappraisals. We now have the entire county scheduled over a four-year cycle of review."

Three Values

Assessment appraisals are based upon the results of a study of one or more of three value indicators; market, replacement cost, and income.

The assessors commercial property appraisers place much emphasis upon the income or economic approach to a value estimate. The courts uphold the soundness of this method.

Value of income-producing property is set by reasonably anticipated future net income. Whatever affects that future income, affects value. A property's income being the useful yardstick it is to the appraisers, owners and lessees are interviewed for useful economic information.

All segments of Lemon Grove's business community have been cooperating fully with the appraisers, according to McQuilken.

He says everyone is familiar with interest rates, but not everyone understands the use of capitalization rates, and explains it this way:

"Interest rate is an agreed rate of return. A capitalization rate is an expected, or hoped for, rate of return on an investment in property. Working backward from an estimated annual return, with a sound capitalization rate, the appraiser establishes a fair opinion of the property's value."

Percentage Basis

"If properties similar to one under study are found to be selling on, say, a 6% net basis, then it is not unreasonable to assume the subject property would be likely to move on the market at that rate."

Answers sought by the assessor's appraisers are vital to a determination of fair market value.

Some centrally located commercial properties in Lemon Grove have "plateaued" — leveled off — in recent years. Other areas, particularly some of the perimeter or fringe of the business district, have increased considerably in value potential since the last appraisals were made here.

Sometime in the spring, probably the latter part of April, publicity will be given what is termed the Assessor's Open Record Session. The new appraisals will be available, at a convenient location here in Lemon Grove, for examination by property owners. The appraisers will be present to assist.

The time of this particular public service is significant. It takes place before the assessment roll is closed, while the assessor still retains control over entries upon the roll. Any error or oversight detected at that time may be readily corrected. And any additional information pertinent to a value determination may still be considered by the appraisers.

"We do all in our power to avoid misunderstandings," Mc Quilken says.

He doesn't use that word "misunderstanding" lightly. The assessor's department is often blamed for the ever-rising property tax bills, yet does not participate in the budget making process!

NEW BANKER — Alex Woods replaces Jack Cummings as manager of the Lemon Grove Brank of the Bank of America. Woods, a former New Yorker, has been with BoA for ten years, the last two of which have been on the bank's service staff.

He lives in Paradise Valley, south of Lemon Grove and is a member of St. Michael's Catholic church. He is married and has two children.

Cummings is being promoted to a larger BoA bank at Santa Barbara. The change is effective this week.

47 Subscribers Aid Retarded Children

The new total in this newspaper's campaign for more readers is 1,166. During the past week 47 more subscribers were added.

In becoming subscribers to this paper, the new subscribers have aided Angels Unaware, the East County Chapter of the San Diego Association for Retarded Children. The center is at 1288 E. Lexington ave., El Cajon.

The funds raised for the center through the subscription campaign will be used for playground equipment for the retarded children. The center is for retarded children unable to attend regular schools.

Each week between 40 and 50 families have been adding to the center's playground equipment fund by subscribing to this newspaper.

Families in this area are being called by solicitors to ask for subscriptions and to have part of the subscription proceeds set aside for the Angels Unaware project.

The campaign is being waged by this newspaper to build its readership so locally so that residents may know more about local government and what's going on in the community.

The Angels Unaware center is being remodeled at present. cents to $3.50 are turned over

Amounts ranging from 10 to Angels Unaware for each subscription obtained. A simple renewal (through our salespeople) provides the smaller amount.

When a first-time subscriber pays for the newspaper for two years through a representative of Angels Unaware, $3.50 is contributed to the center.

Varying amounts in between are handed over for other combinations.

Each week this publication prints the names of the families who have agreed to participate.

Preceding Gleazer's talk, representatives of the Native Sons of the Golden West and of the college student body will combine efforts to dedicate a plaque sealing a time capsule in the carillon base on the campus quad. The ceremony will be held at 1:15 p.m.

Paper Boy Tells Officers He Was Threatened, Robbed

Thirteen-year-old Kevin Thomas Long of 7504 Roosevelt, Lemon Grove, told sheriff's deputies that $23.05 was stolen from him while he was collecting money on his paper route.

Kevin said that while he was walking Saturday evening in the 7300 block of Central a man stopped him and demanded his money.

Kevin said the man said, "Turn around and give me your money. Keep walking. Don't turn around or I'll throw this boulder at you and hit you in the head."

The man was about 5 feet 11, heavy set and had dark hair, Kevin said.

He said the man was wearing a blue tanker jacket, and dark pants.

Coins Taken

Max A. Curtis of 1649 Watwood, Lemon Grove, reported to sheriff's men that $3 in pennies were taken from a glass jar on a snack bar at his home. He also reported three half-dollars were missing. He said the money was taken Saturday.

The program, under the direction of Robert Boucher, will express the many moods of Christmas in a variety of styles. The major portions of the concert will be Music in Church, Christmas Caroling, and Christmas at home. The selections will vary from such traditional carols as "O Holy Night" and "The Twelve Days of Christmas" to modern favorites as "Rudolph, The Red Nosed Reindeer" and "Carol of the Drum."

The concert will begin at 8 p.m. in the Mt Miguel gym. The admission is free, and everyone is invited to attend, Boucher said.

Men's Club, CofC Honor Jack Cummings At Lunch

Jack Cummings, former Men's Club president and former secretary of the Chamber of Commerce, will be honored Friday noon at a joint meeting of the Lemon Grove Chamber of Commerce and the Lemon Grove Men's Club.

Cummings, manager of the Lemon Grove branch of the Bank of America, is being transferred to Santa Barbara.

The lunch meeting will be at Michael's.

Congressman Lionel Van Deerlin will be the speaker.

Last Friday the Men's Club heard a talk by J. D. Slaton, president of the North Island Association.

Slaton, now serving his third year as president, said the organization is not a union but a North Island Chamber of Commerce.

The Pacific Fleet uses North Island for work on all fighter aircraft, all helicopters and all carrier-based transport aircraft as well as for afterburning jet engines, he said.

The members of the group are Lemon Grove and Spring Valley business and professional people.

Among the offices under discussion were the sheriff's, school and water district boards, and county planning.

A series of public meetings will be held after the formation meetings have ended.

The DIMMER VIEW

by MAX GOODWIN

The Time Was Spring

There are no indications that property taxes in San Diego will cost more in the future. The County Assessor's office is in a continual program of re-assessing and the department is properly armed with the charge that "it fairly assesses" property, based on current values.

The chief administrative officer for the County of San Diego has the responsibility of converting the values established by the assessor into a taxe rate based on the needs of the county board of supervisors. The county tax collector is the last man you hear from just as you get the bill and hit the ceiling.

In Los Angeles County right now, there is a property tax revolution. Taxpayers marched on City Hall to demand that tax costs be rolled back. The tax collector can't help them. He only collects. The chief administrative officer can't help them. He sets the rate as a middle man between expense and need, based on assessed valuation. The assessor can't help. He fairly assesses the value of the property. If you doubt it, he has records to show that property is being assessed in line with all other property in that community. The supervisors can't help. They only buy the things taxpayers say they need.

Two big items on county tax bills in California are welfare and school taxes. We can understand the need for school taxes. Additionally, we have the choice of voting for or against increase. In general, school taxes are not unpopular.

Welfare is another kettle of fish. Those taxes were voted in jointly by state and county government without so much as a fare-thee-well on your part. Welfare benefits have been broadened until it is nearing the concept being laid down in Washington by the Johnson Administration. His concept suggests that there is no acceptable reason why any person should not have an adequate income regardless of reason.

At Los Angeles, the revolting taxpayers are being told that they are months too late. The time to have done something about taxes was when the supervisors held budget hearings.

The budget, assessing, tax rating, and tax collecting cycles are so spread that the taxpayer has cooled down by the time each new cycle occurs.

Like the man in Los Angeles said, if you feel in a revolutionary mood because of your tax bill due Dec. 10, the time to have done something about it was last spring.

LG Postmaster Asks Help In Avoiding Last Minute Pile-Up

"The time is short to talk about 'Mailing Early for Christmas," Postmaster Faucher said today, "but you can still help us to avoid a tremendous last minute pile - up of Christmas mail if you'll send all your gift packages and Christmas cards right now."

To the inevitable last minute mailers he suggests the use of air mail for every Christmas card or gift going to distant places. He points out that even a few hours delay at this critical time may mean disappointment for your friends and loved ones on Christmas Day.

The postmaster says that he expects the 1964 Christmas mails will break all records, and that the mail load will undoubtedly hit its peak within the next few days. The flood of outgoing Christmas cards and gifts is being matched by a like torrent of incoming mail that is becoming greater every day.

Postal employees are digging in harder than ever, and the post office will remain open until 5:30 p.m. daily and Saturdays.

"All Christmas cards should be sent by first class mail: the additional penny will assure the delivery and return if necessary. Be sure to include your return address and Zip Code number, on all packages and envelopes, Faucher said.

Donation Needed For Local Charity

Donations of $85 and canned food have been contributed to the Lemon Grove Emergency Welfare Association according to Mrs. R. J. Collette, chairman of the group,. These donations were in response to letters sent to service organizations, PTA groups and churches.

In the Lemon Grove area 14 families are in need of assistance at this time and an effort will be made to provide Christmas baskets or them. Six of these families are being cared for by local organizations with eight left to be placed. Anyone wishing to help can contact Mrs. Margaret Sayward, administrator of the Lemon Grove Welfare Association at 469-5917.

Good, used toys are needed and may be brought to the Lemon Grove Fire Department where they will be repaired by the firemen and given to needy children in Lemon Grove. More canned foods and cash donations are needed throughout the year and any organization or individual wishing to contribute to this cause can contact Mrs. Sayward or Mrs. Collette at 466-9087.

PRINCIPAL FROM HONDURAS — William Faux, foreign educator from British Honduras, and Mrs. Margaret Lambe, sixth grade teacher at Highlands School, join with students Marla Bunderson and David Rappollee in Spanish dialogue. Faux is one of six educators who visited La Mesa-Spring Valley schools last week.

LG Churches Observe Christmas Seal Sunday

Churches throughout the county will participate in the 58th Annual Christmas Seal Campaign by observing Christmas Seal Sunday on Dec. 13, according to Dr. Kenneth G. Hanson, Lemon Grove area chairman.

More than 50 pastors will use special program covers for their services. Except for four Christmas seals at the bottom of the cover and a health message supporting the seal campaign on the back, the program is blank, offering space for printing of church service programs or bulletins.

Participating locally are the Lemon Grove Lutheran Church, 2055 Skyline dr., and the Methodist Church, 3205 Washington.

Campaign contributions, solicited by mail only and made on a strictly voluntary basis, finance the county association's fight against tuberculosis and other respiratory diseases, Hanson said.

"He comes, he comes with healing balm
For all the hurts of men
He comes, he comes with peace and calm
Where all the wars have been." (Anonymous)

"ADVENT"

What are you doing in your home to make the Advent season meaningful? You might conduct daily family devotions which center on the passages of Scripture which point to Christ's coming. The covenants, promises and the worship of Israel in Old Testament times were beacon lights pointing to the coming of Christ.

It Costs More To Stand Still

If you made $5,000 in 1939, you need $12,743 today just to stay even. The family making $13,500 borrows even more money today than the family making $5,000.

Overall, most people are probably much better off than they used to be, whether they believe it or not, according to Changing Times, a Kipplinger magazine.

While most people are unaware of the inflated buck, they nonetheless have a continuing complaint, "The more we make, the less we seem to have."

Klippinger points out that while the Consumer Price Index has risen only 15 per cent over the past 15 years, items that are taking more of the prosperous family's income have risen much faster.

Findings show that ladies go to the beauty shop twice as often as they did 15 years ago. In 10 years the cost of hospital room and board has doubled, and estimates are that they will be up almost another 50 per cent by 1970. Over the same ten-year period, the cost of sending a child to college for one year has risen around 40 to 50 per cent. Indications are that there'll be an additional rise of about 5 to 7 per cent per year from now on.

As a family increases its income, it adds a great deal more each year to its assets, even though it may not always be aware of the improvement.

Actually, when your income rises, all expenditures don't go up in the same proportion. These expenditures that tend to go up faster than income include taxes, insurance, clothing, educational expenses, recreation, gifts and contributions, as well as additions to net worth."

Housing, transportation and food don't go up as fast as income.

Most families are spending more on transportation today than ten years ago when about 9 per cent of all families had two cars; now its closer to 16 percent.

Although the rise in taxes and prices helps to explain why a dollar of income doesn't go as far as it used to, most people have actually upgraded their way of living a lot more than they realize. In addition, while they do not openly admit it, most people are tucking away assets to pass on to their heirs.

LETTERS TO THE EDITOR

Dear Editor:

For a number of years we Americans have been exposed to Communistic propaganda and some of our people have accepted the statements of Stalin, Kruschev, and others as gospel fact. Kruschev told us that our great-grandchildren would grow up in a Communist world and that he would bury us. People with weak and little faith accepted this and almost went into hysteria. Kruschev put on a show by taking off a shoe and banging it on the table at the United Nations. I am one of those who believed that it would be a good thing for Kruschev to come to the United States so that we could listen to what he had to say and then proceed to act intelligently to counter balance it.

We are not living in a sick America; we are living in a healthy America. We are living in an America that has problems, but we also have great opportunities in the light of liberty which calls for a continued dedication and consecration on the part of America and Americans. As long as the dedication and consecration continue, we will continue to live in liberty, freedom and justice.

It is only a few years ago since Kruschev told us that he was going to bury us. Who has been buried first? He is now completely out of the picture and politically dead. His boasting braggadocios are gone. Even his pictures have been taken off the walls of the homes of the Russian people, but America and Americans go prodding along — working, praying, and dedicating themselves, and thanking God for freedom, justice and democracy in a national day of Thanksgiving and seeing to it that a government of the people, for the people, and by the people shall not fail or perish from the earth. To this we ask Almighty God and the people of our community, our state, and our nation to build towards and to pray for the leaders of our nation and to do everything in our power to sing, sing of freedom and our America in this period of Thanksgiving.

I write this letter in a restatement of the things that I said while speaking before the United Veterans Organization's dinner in Encanto on the night of November 11 — a day dedicated to our Veterans.

Thanking you for the consideration which you will give to this statement, I remain,

Your friend,
Frank B. Gigliotti, D.D.

Dear Editor:

Lemon Grove is being plagued by an animal hater. The hatred so great that poison is being placed in fenced yards so that pets that are fenced in are being destroyed in the Mt. Vernon-Skyline area of Lemon Grove. Families that have animals as pets, as a rule, have small children. Does this person (who is spreading poison) realize that little pre-school children often pick up things or food found on the ground and put it in their mouth? If the type of poison is not discovered in time it could mean children are also victims.

If an animal is found dead it should be reported to the Animal Shelter 479-3352 or Sheriff - 232-3811.

A veterinarian can possibly save an animal if brought in as soon as it is discovered ill or dying. Time is the essence Few people realize that poisoning animals is a criminal offense and should be reported to the Sheriff even if the source of poisoning is not known.

Dear Editor:

As to the business men being picked up by the sheriff's deputies and hauled in, too bad. It is getting so that the business and church people think the way they do is right. It is alright for the man in the street to be picked up and hauled in but the shoe is on the other foot when it comes their way.

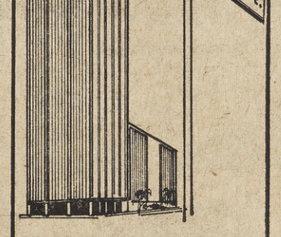

I am 72 years old and have been around a lot and have seen a lot of such goings on.

When they come up before their Maker let them think this over.

a funny bird the pelican

Even in this advanced age of technology, some things can't be controlled . . . like the friendly-looking pelican who unfortunately chooses to roost on electric lines where his tremendous wing span often shorts out service. We don't like to blame anything on a bird, but customers often ask us why electric service is occasionally interrupted in an area. There are many reasons . . . all accidental, like the pelican. Automobiles crash into utility poles . . . hunters' careless shots nip insulation . . . construction cranes and wind storms knock down wires.

Our skilled repairmen are on call in radio-equipped trucks 24 hours a day for just such emergencies. Whenever an electrical outage occurs, a special crew is dispatched to the scene immediately to restore service. We hope you are never without service, but if you are, we apologize, and assure you it won't be for long.

L.G. Republican Assembly Takes Stand On Hoover, UN

The Lemon Grove Republican Assembly has passed a resolution commending F.B.I. Director "for his outstanding work in service to our country." The resolution also praised the F.B.I. "as the one investigative body which has done the most to preserve our freedom and safety in this country," and "for it's outstanding work over the years of investigating and exposing subversives and others who are a menace to our American way of life."

The action was taken, according to Emil Balaban, president of the group, because of recent undue criticism of Hoover, who recently spoke out in defense of the reputation of the F.B.I., which has also been under fire because of alleged inaction in recent civil rights activities.

In other action, the membership unanimously approved a resolution urging the United States government to withhold all financial contributions to the United Nations until such time as all other member nations, particularly the Soviet Union, have paid all their past dues and assessments. The resolution pointed out "that according to the United Nations Charter, members two years behind in their payments to that body, which includes the U. S. S. R., lose their right to vote in that organization," and noted that "a current stalling technique is being used in order to avoid denial to communist countries of their right to vote."

Program Chairman Robert McCaffrey presented two films to the group at their December meeting held in Lemon Grove Junior High School Cafetorium, entitled "Our American Heritage." Two other educational films will be presented at the January meeting, it was announced. The group meets on the first Wednesday of every month. Interested persons are urged to call 466-3293 for further information.

Now that we are in the time between the end of a season and the start of another, perhaps we should look around to see if we have any shrubs or trees that are planted in the wrong places.

Moving shrubs while they are dormant or nearly so is best because they will stand more abuse and the winter rains will give them a better start in their new location.

However, we can help some by adding some bone meal or balanced fertilizer in the bottom of the hole to help the new roots when they start. All shrubs and trees should be soaked in a Vitamin hormone solution to minimize transplant shock.

After planting, a monthly application of an all-fish fertilizer will get them off to a good start.

SCHOOL BOARD MEMBER PLACES CHILDREN IN PRIVATE SCHOOL

Dr. William J. McCandless, recently elected trustee of the La Mesa-Spring Valley School District, said recently that he has placed his two children in the Mae Carden School of Point Loma, a private institution. The two youngsters had been attending Fletcher Hills Elementary School in the first and third grades.

The Doctor said his reason for the transfer was the advantages offered in a smaller institution. Also the smaller school offers programs which would be difficult to integrate into a public school. He said the children have really been pleased with the switch.

MT. MIGUEL BAND CONSIDERED FOR INAUGUARATION PARADE

The Mt. Miguel Marching band is being considered for participation in the inaugural parade in Washington D. C. on Jan. 20.

"About $40,000 would have to be raised to cover expenses if we go," said Director, Lawrence Christianson.

It would cost about $350 per band member, Christianson said. No action has yet been taken by school officials.

Mt. Miguel Annual Christmas Music Program will be presented Tuesday, Dec. 15, at 7:30 p.m. in the school gymnasium.

The orchestra will present "Spring" from the "Four Seasons" by Vivaldi, featuring Aleeta Frase on the violin; "Overture" from "Egmont" by Beethoven; "Finlandia" by Sibelius and "Carmen Suite" by Bizet.

The concert band will present "English Folk Suite" by Ralph Vaugn Williams and "Prairie Overture" by Robert Ward.

The marching band will present "Gloria" their first place winning number at the All Western Band Review, and several other marches.

The entire department will present other numbers not listed here. It is recommended that the public come early to be assured of places to sit as there is no admission charge and the gymnasium capacity is limited, Christianson said. This is the Christmas gift of the department to the community for support in the efforts of the youth in their chosen musical field.

Two Monte Vista Students Nominated For Exchange

Monte Vista students, Cheryl Smith and Ralph Traber, have been nominated for the American Field Service summer exchange program next year. They must undergo screening by local and national judging committees and have a home found for them with a family in a foreign country before they will be accepted.

The requirements for student applicants for this exchange program are an excellent scholastic record, two years of a foreign language, and perfect health. They must be a member of a school which has an AFS student from abroad. Monte Vista's Tomiko from Japan fullfills the latter requirement. The students must also pay the cost of transportation and fees to and from the country to which they go.

The purpose of the Americans abroad program is to promote understanding and friendship among all peoples.

Christmas Project Set By Vista La Mesa PTA

The pupils of Vista La Mesa School are again joining hands with their mothers and fathers of the PTA in helping to provide a Christmas basket for a Lemon Grove family. It is an annual practice for our pupils to learn the joy of giving at Christmas time, and to have parents supplement their gifts to the extent of providing a really good Christmas dinner for someone else's family.

The children give an average of only a nickel apiece, but each contributor is made aware by his teacher that without his nickel the whole wonderful gesture might have been impossible.

Clarence Allen, principal, will be host to the PTA board members at his home Monday evening, Dec. 14. Each member will bring canned food for the school's Christmas basket and after a short business meeting there will be an exchange of gifts.

The children will present a Christmas program for their parents, relatives, and friends Thursday evening, Dec. 17 at 7:30 in the school cafetorium. Santa Claus will visit the classrooms with a treat for every child on Friday, Dec. 18.

Girl Scout Chatter

by Mary D. Giacinto

December 1 marked the Fall hike for the women scout leaders of District 10. Balboa Park was the setting where a delightfully crisp day was enjoyed by all.

Mrs. McCrea has graciously undertaken the cookie chairmanship for the Girl Scouts in this district. Good luck, Mrs. McCrea. May you receive all the much needed help you require.

Troop 235 under Jenny Ledesma is still in the reorganization stages. They will soon have their investiture ceremony and have a more rounded level of girl scouts. One of their forthcoming projects which they look to eagerly is project Amigos. Each girl is collect clothing and usable articles for a certain individual — or two — or even three if she can manage. The girls will sew bath towels together to form a carrying bag for their collection. They will present one bag to each child - an Amigos - as a gift from them. If and when the girls come to you for a donation, be ready, be willing, and needless to say, generous.

SV Kiwanis Float Picked For Award In Toyland Parade

The Spring Valley Kiwanis float, which suffered a setback Nov. 27 when fire destroyed all but the framework, came through with a special judge's award at the North Park Toyland Parade.

Frank Berger, the club's president, said that as soon as the damage was discovered new material was ordered from Long Beach. When the material arrived here nearly half the club members along with Key Club members of Monte Vista High School began working on the reconstruction of the float, "The Night Before Christmas." Three hours hard work was put in on Wednesday and Thursday nights, and then about six hours on Saturday. On Sunday the float was in the parade.

S. V. Kiwanis will not have a float in the New Year's Rose Parade, but there will be one by International Kiwanis of California, Nevada, and Hawaii, depicting 50 years of Kiwanis service to the communities.

'Miracle Worker' Opens Dec. 10 at Junior College

The opening of William Gibson's, "The Miracle Worker" marks the second production for the Grossmont College Griffin Players' 1964-65 theater season.
